

Ankit Dawadi

dawadi030@gmail.com — ankit.795401@trc.tu.edu.np — +977-9741689543 — Kathmandu, Nepal

PROFILE

Third-year BSc student (Physics, Statistics, Mathematics) at Tri-Chandra Multiple Campus, Tribhuvan University. Focused on computational physics, statistical modelling, and machine learning applications in scientific research. Proficient in Python-based data analysis (NumPy, Matplotlib, Seaborn). NASA Space Apps Challenge 2024 participant. Seeking research or data-science internship opportunities to apply quantitative methods to real-world problems.

EDUCATION

BSc — Physics, Statistics, Mathematics, Tri-Chandra Multiple Campus, TU 2023 – Present — Kathmandu

Higher Secondary Certificate (NEB Science Stream) · CGPA 3.12, Siddhartha Vanasthali Campus Completed — Kathmandu

Secondary Education Examination Grade 10 (NEB) · CGPA 3.75, Tara Secondary School Completed — Gorkha, Nepal

PROFESSIONAL EXPERIENCE

NASA Space Apps Challenge — Participant Oct 2024 — Kathmandu

- Built a data-driven solution using NASA open datasets to address environmental sustainability challenges.
- Collaborated in a cross-disciplinary team; prototyped and presented findings to a panel of judges.
- Applied Python-based data analysis and scientific communication under competition conditions.

Walkathon Management Team — Teach For Nepal Aug – Sep 2024 — Kathmandu

- Led the Tri-Chandra Multiple Campus delegation; coordinated inter-college and club engagement.
- Managed event logistics and fundraising for a large-scale student mobilisation.

Mathematics & Computer Science Teacher — Sunakhari Eng. Boarding Aug 2023 – Feb 2024 — Kathmandu Secondary School

- Designed and delivered math and computer lessons for secondary-level students.
- Created interactive lesson plans; tracked academic progress and provided targeted feedback.

Documentation Officer — Boston Education Consultancy Mar – Sep 2024 — Kathmandu

- Processed US student visa documentation, ensuring accuracy and regulatory compliance.
- Liaised with clients and embassy requirements under tight procedural deadlines.

SKILLS

Programming	Python (NumPy, Matplotlib, Seaborn), MATLAB
Research	Literature review, scientific paper writing, L ^A T _E X / Overleaf
Data Analysis	Statistical modelling, exploratory data analysis, visualisation
Communication	Technical writing, public speaking, content writing
Software	Linux, Git, Jupyter Notebook, Microsoft Office Suite

CERTIFICATIONS & TRAINING

Python for Data Science / Machine Learning, Coursera / freeCodeCamp 2023 – 2024

Scientific Computing with Python, freeCodeCamp 2024

LANGUAGES

Nepali (Native) — **English** (Proficient — academic & technical) — **Hindi** (Conversational)

INTERESTS

Computational physics · AI/ML in science · Statistical inference · Open-source tools · Volunteering · Reading · Music
